

PROFESSIONAL SUMMARY

Computer Science undergraduate with a strong focus on **web application security, vulnerability assessment, and offensive security**. Hands-on experience building an **AI-powered web security platform with a browser extension**, performing vulnerability detection, and mapping findings to industry standards such as **CWE and CVE**. Certified in web exploitation and actively developing practical security tools and vulnerable lab environments.

EDUCATION

Bachelor of Science in Computer Science (BSCS) Nov 2026

CERTIFICATION

Hack The Box – Certified Web Exploitation Specialist (CWES) [🔗](#) July 2025

WORK EXPERIENCE

IT Support Assistant (11ven Tech Yards) Islamabad, PAK (Hybrid)

May 2023 - Aug 2024

- Independently handled and resolved a high volume of remote technical support issues, building strong system-level troubleshooting and root-cause analysis skills.
- Automated system administration tasks using PowerShell and batch scripting (log rotation, temp cleanup, directory management), reducing manual workload by 25%.
- Applied scripting and systems knowledge to develop a deeper understanding of Windows internals later leveraged in offensive security and post-exploitation workflows.
- Collaborated with technical teams to identify recurring issues, contributing to improved documentation and preventive security measures.

PROJECTS

Net Needle – Web Security Platform (Final Year Project)

Web Application + Browser Extension

- Built a web-based vulnerability scanning platform with a browser extension for technology detection and contextual security scans.
- Implemented an AI-guided backend to control scan depth and classify common web vulnerabilities (SQLi, XSS, misconfigurations).
- Integrated CVE/CWE mapping and generated clear, actionable security reports via a cloud dashboard.

TECHNICAL SKILLS

Web Security: OWASP Top 10, SQL Injection, XSS, Authentication & Session Management

Tools: Burp Suite, basic Nmap, Linux command line

Programming: Python, JavaScript, SQL (basic scripting & understanding)

Systems: Linux, Windows fundamentals
